

# DUCK CARE CORE BELIEFS

---

*Assuring the well-being of our ducks is a top priority for Maple Leaf Farms*

We take duck care very seriously and train our employees and partner farmers on the proper care and handling of ducks.

We do not condone the mistreatment or abuse of ducks. Such actions are a violation of our company's code of conduct and **MUST** be reported to management immediately.

We are committed to using approved best animal care practices throughout all stages of production and processing to avoid mishandling ducks. In any case where these practices are not being followed, management should be alerted so corrective action can be taken.

We will continue our support of research related to humane duck care and handling and incorporate this work into our well-being program.
